Friday, August 21, 2020	9:30 -	Oral Examination

** International applicants can also apply for “General application” the same as domestic applicants (please see the Japanese version of the application guideline for details). Applicants who wish to take the “self-recommendation admission” must get prior approval from their prospective supervisor by June 26, 2020.

Accordingly, applicants must consult with their prospective supervisor well before the date.

(Please note that applications are approved only in limited circumstances for those with high academic potential and achievement. Dual application to “special application for international students” and “general application”, including “self-recommendation admission”, is not allowed.) Applicants must mention the name of their prospective supervisor who approved their application on the application form.

When self-recommendation admission applicants have extreme difficulty to come and take the oral examination at Nagoya University, the applicant’s prospective supervisor may allow the applicant to take an online video interview. Applicants who wish to take this must have their prospective supervisor’s approval by June 26, 2020 and mention it on the application form. Online video interviews are held during the same time period as the oral examinations as written above. It is the applicant’s responsibility to have access to a webcam and a good internet connection; if you fail to do so, the applicant may be considered as absent.
